<p>I object to this planning application for the following reasons:</p> <p>Biodiversity Impact - The proposal suggests using parts of Dum and Dogloitch Ancient Woodlands, to offset the ecological damage caused by this development. This is a significant change not considered by the Strategic Planning Committee during its original decision, raises serious concerns about transparency and introduces new factors that should be carefully considered before proceeding. Ancient woodlands are irreplaceable, and using them for offsetting is insufficient to mitigate the environmental harm caused.</p> <p>Local Infrastructure - The local area is already struggling with a lack of school spaces, limited healthcare services, and an inadequate road network. The proposed development will only worsen these existing issues.</p> <p>Strategic Planning Committee - Due to the significant environmental and infrastructure concerns, this application should be referred back to the Strategic Planning Committee for further scrutiny. A full review is necessary to address the concerns of local residents and ensure that all aspects of the development are thoroughly examined.</p>
