<p>I want the raise an objection that the planning application needs to be brought before you strategic planning committee. That would be the expected process and a clear conflict of interest if that doesn't happen.</p> <p>The plan to make dum and dogloitch woods the as the place to make changes to offset the damage caused by the application is frankly ridiculous. The woods are ancient woodland with well established eco-systems and another area should get the focus to improve its state and offset the damage.</p> <p>The applications and potential impact is devastating for the local area. The open spaces and woodlands are a fantastic place to be able to spend time to help teach my kids about the delicate balance we face as a society on looking after our surroundings and what we have. Our children will not be thankful of losing such an essential area due to the keenness of some to make some money. It is such a shame that green spaces that mean so much to our community are constantly getting attacked and damaged.</p>
