I object to the proposed housing development due to its significant environmental impact, particularly the destruction of valuable local woodland at Dum and Dogloitch woods. The woodland in serves as a crucial habitat for a variety of wildlife, some of which may be endangered or have limited habitats in the area. The proposed development is likely to reduce the quality of life for local residents. The loss of green space will have a detrimental effect on the mental and physical well-being of the community, who currently benefit from the recreational and aesthetic value of the woodland. The increase in housing density will place additional strain on local infrastructure, such as roads, public transport, and essential services, which are already under pressure.
