Subject: OBJECTION TO PLANNING APPLICATION 2020/92350

To whom it may concern,

This is a formal objection to the proposal for development of the above site. First issue is the continued blatant disregard for policy that Kirklees continue to show on a daily basis. Shame on you for such behaviour giving scant regard to matters of public concern.

Grounds for objection:

1. Dum Wood & Dogloich Wood are registered on the Ancient woodland register. As sited in para 180c of the NPPF these woods are safeguarded and irreplaceable and should be left alone unless exceptional circumstances exist.
2. Development of this site will divert water away from the woodland resulting in a loss of specialist flora, dieback of trees and increase downstream flooding.
3. Development will massively impact the significant biodiversity and protected species of the woodland.
4. Development of the site will undermine critical ecosystem services like flood mitigation, climate resilience and biodiversity protection
5. The development would mean a permanent loss of agricultural land when food security is a national concern.
6. Development would lose a treasured area of well being, community and quality of life.

Kirklees listen loud and listen clear... you simply cannot continue to behave in this way. We pay your wage bill ultimately. Your continued scant regard for local democracy is breath taking and cannot be allowed to continue.
