

About the application

Application number: 2020/92350	
What is the application for?:	Outline application for residential development (Use Class C3) of up to 181 dwel
Address of the site or building:	Land south of, Heybeck Lane, Chidswell, Shaw Cross, Dewsbury
Postcode:	

User comments

Type of comment: An objection
I strongly object to this application on a number of grounds: Firstly, the roads are already severely congested around rush hour times; travelling down the A653 from the Heybeck Road junction to the church in Shaw Cross adds an additional 10 minutes to my commute already on some days, just to travel less than a mile. Then of course there is the impact on junction 28 of the M62 to consider. The large amount of proposed dwellings are likely to all be accompanied by at least one, probably two cars which will add to this congestion and cause an unacceptable increase in pollution. we also have concerns about schooling; there may be provision for a primary school planned in but where are all the extra children to go for secondary school? Schools in the area are already over subscribed, not to mention other local services such as doctors surgeries. Potentially most upsetting is the loss of so much natural space; this has been a great benefit to local people during lockdown wo have used the green spaces for exercise and respite. the loss of this space would hit me hard, as it is the only green space I can reach while exercising that doesn't require a trip in my car. Also there is a huge amount of wildlife that would be displaced by the plans, including valuable pollinators. and all call that space home, to name but a few species, and my fears that these issues have not been considered are reinforced by the objections I have seen from the .
