| <p>This area has long been a local "resource" for several reasons; it is classed as containing 2 ancient woodlands, important habitats for notable native species</p> <p>it is a large "green space", acting as lungs to help clear the air of our already over polluted roads. We need to keep our good air quality ratios up.</p> <p>Allowing the extremely large volume of traffic this development will create will overpower this area.</p> <p>The road structure in this area is already overwhelmed. These days most houses have 2 cars so even if only half the houses have 1 car that means a MINIMUM OF 2000+ cars A DAY using our local roads which are already struggling to cope. The majority of these are also well overdue for maintenance and repair.</p> <p>This land provides access to walks, bridleways etc for recreational purposes. All these activities enable local people to use these activities at no cost in these days of high levels of spending due to inflation and help improve peoples mental health</p> | |
