If this plan was to go ahead it would completely devastate the area. The loss of the green area would affect the mental health of the community within this area. We would lose good Agricultural land. We would have a permanent loss of endangered species such as Red Kite and Barn owls just to name 2. The surrounding buffer on the plan has been identified as too small to prevent damage to the two main woods. So just because you are not building on the woods this will not stop them from being destroyed. The current infrastructure of the area would collapse due to the pressure on its Resources, such as Doctors, Schools. The massive increase in traffic would have an effect on local pollution levels increasing local health problems including children living in the area. I hope serious consideration is taken when looking at all objections.
