---

good morning -

planning ref - 2020/92331 - 2020/92350

My objections are - These planned developments will be a disaster in many ways -

Increased traffic on a road - A653 - Leeds Road which is gridlocked on most weekdays .  
Add another 1000 cars to this and movement in and out of Dewsbury will become very difficult . In addition the fumes and pollution will grow and grow .

It is environmental vandalism - reducing green and important ancient woodland that cannot be replaced . It may be that some will remain, but only in a zoo type function. Wildlife needs room .

All this concrete -which is hugely polluting and adds huge amounts of carbon dioxide to the atmosphere - will cause flooding as the rain will have nowhere to soak into.

I look forward to your response

34 Leeds Road  
Dewsbury
