Address of the site or building:	Land south of, Heybeck Lane, Chidswell, Shaw Cross, Dewsbury
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
<p>I would like to object to the application on the following grounds:-</p> <p>The existing road infrastructure is not designed for this level of development. At peak times the number of vehicles is such that journey times are already increasing with increasing traffic pollution, stationary traffic and noise to the existing community. An additional 2500+ cars plus the other developments proposed in the area means this will only get worse. This will also contribute to climate change with the loss of green space as well as the increased traffic pollution.</p> <p>The area itself is one which is currently green space with a variety of habitats for a variety of animals and plants. This includes large animals such as roe deer, foxes which live in the area. The bird life is diverse with woodpeckers, skylarks, buzzards, to name but a few. Bats are also present in the green space having watched them in and around the fields and woods. These are supported by a diversity of smaller animals and plants which provide an amazing green space</p> <p>The details in the application fail to take account of this diversity and the reports appear to completely fail to take account of this diversity of animals and plant life.</p> <p>Lockdown has shown the importance of such green spaces for the wellbeing of communities. The area in question has been significantly used by all communities and contributes to the mental and physical wellbeing of all.</p>
