<p>The same reasons as per my objection to the Chidswell development - which should only be one application.</p> <ul style="list-style-type: none">- Harmful airborne pollution from the development process will have a detrimental effect on our childrens health (8 and 5 years old - just yards from this construction site).- Increase in airborne pollution from the 10's of thousands more car journeys passing our house as a result as confirmed by the traffic surveys.- Displacement of valuable nature and wildlife.- Displacement of green space for walking and recreation.- Increased traffic and travel disruption for an unacceptable period while being development. Reduction in quality of life as a result.
