Terrible idea. Damaging to air quality, goes against the Kirlese climate strategy and there is already a shortage of high school places. This is a beautiful area used by many for walking and mental wellbeing. The photos included in the proposal have clearly been taken on a bleak day, out of farming season and made to look like waste land. In spring and summer, this is a very scenic area containing a large variety of endangered species. As a resident on Heybeck lane, I am already subject to flooding in the winter, surely this development will only make matters worse.
