Subject: Re: Tree Work Application 2020/92502

Just consulted with a neighbor and they say what we want to do is called "crowning" because the trees are leaning close to the roof of the house and we want to create some distance.

Hope that's more helpful.

Thanks again for your help,

Milly

Hi Nick,

I'm so sorry that we weren't able to talk. We were concerned that the trees are leaning too near the roof and might be in danger of falling onto the house, so we wanted to trim/prune/cut back the branches back so as to remove some of the weight of the branches. You must forgive me, I'm not a gardener, so I don't know the correct terminology.

Does this make sense?

Thank you

Dear Mrs d'Escrivan

I have visited the property 41 Holme View Drive, on 11th September. I noted at the time that there was no description of work in section 5 of the application form; only that you wish to prune the trees. We understand that you may not know how much or what work to specify but could you please provide at least a description of either the work you wish to carry out or what you wish to achieve by the pruning the trees for example, more light or greater distance between branches and the property.

If you could respond to this email before the 28th September I will try and get your application processed within the allowed 8 weeks.

Kind regards

Nick Goddard
