6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

Our neighbour is very concerned about the position of the ash tree in our back garden. Branches have dropped in the high wind and he is worried that they might hurt his grandchildren. The tree does lean towards his (brand new) house and over his garden - more than when we moved here seven years ago. There are three very big branches - again all hanging over his garden. We would appreciate your guidance about this matter and advice to reassure our neighbour and us. A third person has been to look at it & agrees it needs inspection

3. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
