<p>I think it's a great idea to build a mosque, it's a good idea to help the local community, especially younger generation who will be taking part in daily classes where they will learn the message of almighty god and will promote peace and tranquility.</p> <p>There is good car park space and easy access to get in and out of the property, therefore will play no role in disturbing the traffic of the surrounding area.</p> <p>Many people in this area need to travel far and wide to attend a prayer, since most people who attend these prayers are the elderly who have no access to transport, this becomes extremely difficult for them make themselves present at the mosques.</p> <p>By building a mosque in this area, it will finally take the pressure off their shoulders of having to walk long distances.</p> <p>Mosques are one of the main places where the Muslim citizens carry out obligatory prayers and is also one of the places where they can release their stress and can finally relax and meditate which helps improve their mental health. Therefore by building one will mean it will make a positive impact of hundreds of people's lives.</p>
