Type of comment: An objection
My wife and myself strongly object to this planning application. This is a two-bedroomed traditional bungalow as are all the other properties located on that side of Oak Avenue. The plans to change this property into a five-bedroomed house, over two floors, is not in keeping with the other bungalows and it is an extremely radical development. Traditional single-storey bungalows are in demand by the elderly, disabled and others with reduced mobility. This planned development of 1 Oak Avenue would result in this property being made unavailable to potential buyers who really need to live in this style of bungalow. We sincerely hope that the Planning Committee will take into consideration our views, when making their decision, as this planned development would be extremely detrimental for the reasons stated above.
