The unsustainable scale of the development and the impact on the infrastructure of the village. 2. The layout and density of the proposal is not in-keeping with the surrounding area. 3. Increased traffic generation onto very busy roads and an already problematic junction at the triangle, where school children walk to both Shelley College and Scissett Middle School. 4. Impact on an already overloaded drainage system and potential for flooding. Update: These issues have been emphasised by the incidence of large amounts of rain/flood water run -off recently which will be exacerbated by this development.
