INVESTMENT & REGENERATION SERVICE**

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No: 2020/62/93014/E

Site Address: 66, Westfield Lane, Wyke, BD19 6DR

Description: Erection of conservatory to the front

Recommending Officer: Jennifer Booth

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Paul Dowd

AUTHORISED OFFICER

Date: 14-Dec-2020

OFFICER REPORT

Site Description

66 Westfield Lane is detached brick-built bungalow, with stone detailing on the front elevation. There are gardens to the front, a drive to the side and a modest garden enclosed to the rear, with a garage attached on the rear corner of the dwelling.

The location of the dwelling is within a residential area with neighbouring properties, which vary in terms of age, size and style.

Description of Proposal

The applicant is seeking permission for a conservatory to the front.

The conservatory would project 4m from the front wall of the dwelling and would extend across the width of the property with brick-built corners, dwarf walls and a hipped roof form.

Relevant Planning History

None.

Representations

The application was advertised by neighbour letters, which expired on 25/11/2020.

No representations were received following this publicity.

Consultation Responses

HSE – no objections.

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications be determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been

incorporated into the formulation of Local Plan policies. The Local Plan pre-dates the declaration of a climate emergency and the net zero carbon target. However, it includes a series of policies, which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design
- **LP 53** - Contaminated land

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published 19th February 2019, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 15 – Conserving and enhancing the natural environment

Assessment

The following matters are considered in the assessment below –

- 1) Principle of development
- 1) Impact on visual amenity
- 2) Impact on residential amenity
- 3) Impact on highway safety
- 4) Other matters
- 5) Representations
- 6) Negotiations
- 7) Conditions
- 8) Conclusion

1 – Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction

with Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

These issues along with other policy considerations will be addressed below.

2 – Impact on visual amenity:

The property is located on a residential street with properties of varying ages and styles surrounding. Dependent upon design, scale and detailing, it may be acceptable to extend the host property.

It is appreciated that the conservatory is proposed to be located on the front elevation and this will have a degree of prominence. However, the dwelling is set back from the neighbouring properties to either side and the neighbouring 64a Westfield Lane has its own large front conservatory. As such, this would not be out of character with the host property or the wider area. Furthermore, the materials proposed would be appropriate for a conservatory. As such, the proposed conservatory is considered acceptable in terms of visual amenity.

Having taken the above into account, the proposed conservatory would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, thus complying with Policy LP24 of the KLP (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building and the aims of chapter 12 of the NPPF.

3 – Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out in terms of policy LP24 c), which states that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers.

There are no dwellings opposite the site which could be affected by the proposed conservatory.

Impact on 64a Westfield Lane

This adjacent neighbouring dwelling to the east is set closer to the road than the host property and has its conservatory. Given the spatial relationship between the dwellings, there would be no harm caused to the amenities of the occupiers of the adjacent 64a Westfield Lane.

Impact on 68 Westfield Lane

This adjacent neighbouring dwelling to the west is also set closer to the road with its garage along the shared boundary. Given the arrangements on site,

the proposed conservatory would have no significant impact on the amenities of the occupiers of the adjacent 68 Westfield Lane.

Having considered the above factors, the proposals are considered not to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, thus complying with Policy LP24 of the KLP (b) in terms of the amenities of neighbouring properties and Paragraph 127 (f) of the NPPF.

4 – Impact on highway safety:

The proposals will not result in any intensification of the domestic use. Therefore, the scheme would not represent any additional harm in terms of highway safety and, as such, complies with Policy LP22 of the KLP.

5– Other matters:

Contaminated land

The site is close to a source of potential contamination. However, given the domestic nature of the property together with the built-up nature of the area, it is considered reasonable to include a condition regarding the reporting of unexpected contamination.

The site is close to a gas line. However, the HSE has raised no objections.

Carbon Budget

The proposal is a small-scale domestic development to an existing dwelling. As such, no special measures are required in terms of the planning application, with regards to carbon emissions. However, there are controls in terms of Building Regulations, which will need to be adhered to as part of the construction process and which will require compliance with national standards.

There are no other matters for consideration.

6 – Representations:

None.

7 – Negotiations:

None.

8 – Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions:

- Accordance with the approved plans, to ensure the development is carried out in line with the officer's assessment.
- Matching materials, to ensure that the extensions harmonise with the host property, as using alternative materials would look out of place within the street scene.

9 – Conclusion:

This application to erect a conservatory to the front of 66 Westfield Lane has been assessed against relevant policies in the development plan, as listed in the policy section of the report, the NPPF and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposed extension is considered acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF, taken as a whole, constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is, therefore, recommended for approval.

Recommendation

Approve

Decision Authorisation - Delegated Powers

Application Number: 2020/93014

Officer Recommendation: Approve

Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, and the aims of the National Planning Policy Framework.

3. The external walls and roofing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building.

Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, and the aims of chapter 12 of the National Planning Policy Framework.

4. In the event that contamination not previously identified by the developer prior to the grant of this planning permission is encountered during the development, all groundworks in the affected area (except for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days. Groundworks in the affected area shall not recommence until either (a) a Remediation Strategy has been submitted to and approved in writing by the Local Planning Authority or (b) the Local Planning Authority has confirmed in writing that remediation measures are not required.

The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures. Thereafter remediation of the site shall be carried out and completed in accordance with the approved Remediation Strategy. Following completion of any measures identified in the approved Remediation Strategy a Validation Report shall be submitted to the Local Planning Authority. Unless otherwise approved in writing by the Local Planning Authority, No part of the site shall be brought into use until such time as the site has been remediated in accordance with the approved Remediation Strategy and a Validation Report in respect of those works has been approved in writing by the Local Planning Authority.

Reason: To protect the development from any potential contaminated land and to comply with Policy LP53 of the Kirklees Local Plan and Chapter 15 of the National Planning Policy Framework.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays, 08.00 and 13.00 hours, Saturdays, with no working Sundays or Public Holidays. In some cases, different site-specific hours of operation may be appropriate.

Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services may control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule:

Plan Type	Reference	Web ID	Date Received
Proposed plans	01a	839530	19/11/2020
Photos	-	829290	20/10/2020

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority has, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application.

As the submitted plans were considered acceptable, no changes were sought.
