Type of comment: A general comment
1. Concerned about the height of the building, that it will block the light into our garden. 2. Boundary line. Will the building be within the permitted limit which we believe to be one metre? Can it be built up to the boundary line? 3. On looking at the plans submitted we will have 4 windows overlooking our property, 2 on the ground floor and 2 on the first floor. These will invade our privacy. 4. We were advised that the building was to be a 2 bedroomed bungalow, which we have no problem with. Unfortunately the plans show a 4 bedroomed 2 storey mansion with windows overlooking our private garden. We believe the building will obstruct our 'right to light' and the enjoyment of our garden. 5. This property will obstruct our views from our kitchen and dining room which I have enjoyed for the past 20 plus years. We confirm that we are not opposed to the building of a single storey bungalow. Please can you reply with your comments to the above points before 17 December 2020.
