Type of comment: An objection
I wish to register an objection to Planning Application 2020/93467 for a gate and gateposts at 402 Birkby Road. The gate is mainly solid wood with some ironwork on top. It is approximately 2.25 metres high and 7 metres long with gateposts are 2.5 metres high. The gates are on an unadopted lane is a highway for planning purposes and neither the gate nor the fence that has been constructed along the lane should exceed one metre in height without planning permission. The new gate is of an overbearing size and together with the high fence is harmful to the visual amenity of the local area. Furthermore, having walked around the Birkby and adjoining areas many times during the lockdowns I have not seen a gate so large and overbearing and therefore object to the retrospective application. It is clear that the gate has been constructed in the knowledge that a gate of such a size required planning permission such that the current retrospective application should be refused by the Council and the gate and gate posts removed.
