Kirklees council need to right the wrong that they allowed to happen with the building of this pitch so close to residential properties mostly housing families with young children. It's time they started acting in the best interest of the tax/council tax payers and voters. We beg of you not to let this monstrosity impact any further on our mental health and wellbeing. We as residents do not have any respite from the noise and disturbance this club causes us daily with the pitch/car boot and rugby games. Please limit the use of this pitch to a reasonable level.
