Address of the site or building:	site adj, 13, Cuckoo Lane, Honley, Holmfirth, HD9 6AS
Postcode:	

User comments

Type of comment: An objection
<p>This land is not stable at the rear where it overhangs properties on Thirston Road which was confirmed on previous applications. On the application it was stated that Cuckoo lane was a quiet road which is not true. Firstly it is narrow and certainly NOT quiet, at 9am - 12pm & 3pm it is very busy with parents driving and walking there children to school & during other times there are always delivery vans of varying sizes. Also getting out onto the roundabout at the bottom is certainly not good. It also says that the stone retaining wall will be removed, this has been there 100's years and is a feature of the area. The building of this property will be an accident waiting to happen, with extra lorries delivering building materials etc. I am totally against the building going ahead within this conservation area. Room and space are ltd with narrow roads and heavy traffic.</p>
