What is the application for?:	Outline application for erection of one dwelling (within a Conservation Area)
Address of the site or building:	site adj, 13, Cuckoo Lane, Honley, Holmfirth, HD9 6AS
Postcode:	

User comments

Type of comment: An objection
<p>This has already been rejected several times as several different planning cases. It would affect the listed wall and trees around the area. The retaining wall which backs onto Thirstin Road is not strong enough for any building to be built on the garden. It is already structurally unsafe. Any type of development could result in destabilising the structure further causing a collapse and damage to the houses below. As well as look into them if built ruining their privacy.</p> <p>The streets around the proposed development are already extremely congested and could potentially cause safety issue for the children and parents especially around school times.</p>
