<p>I have read the several objections raised against this development and concur wholeheartedly with them.</p> <p>There can be no doubt or ambiguity that the development will impact severely on no 27a church lane and Vicarage meadows but it will also effect neighbouring homes in terms of destroying the natural environment, effect on trees and landscape, character of the area, light , noise and privacy and destroy beautiful views (something to be valued as this is being eroded as a natural heritage and can never be replaced)</p> <p>Once erected and occupied the pressure for continual development and further erosion of all mentioned factors will be significant and encourage further developments along this treasured green space.</p> <p>The occupants will also suffer from a serious lack of natural light, compelling pressure to further reduce the remaining tree canopy.</p> <p>Once this gate has been opened there will be no closing it to the detriment of the whole surrounding area.</p>
