<p>Whilst our property would not be directly impacted by this development in terms of visual amenity, we do have concerns about the following:-</p> <ul style="list-style-type: none">- Affect on the water table which could increase the risk of subsidence to nearby properties- The loss of a significant number of trees- Negative impact on the urban habitat and wildlife- If this application were to be approved it could lead to further development on neighbouring properties with a resultant increase in housing density.
