<p>Many more words, diagrams etc about the trees but the same effect of removal when Tree Preservation Orders in the rest of Church Lane do not allow removal. No effect on my original main objections (24/2/21)that siting of the new building is completely inappropriate for this location and the properties that are overlooked.</p> <p>Furthermore access to the proposed site through the Protected Trees with HGVs carrying building materials etc, will irreparably damage the trees. These vehicles are 3m wide, 3m high, 7.5m long and on average weigh 20+ tonnes (laden). These vehicles will damage the trunks, the low branches of the trees and there is no telling what the weight damage of 20 tonnes will do to the roots.</p> <p>I therefore strongly urge the Planning Committee to decline the submission.</p>
