How will it be ensured that parents use the freed up space on the school site for drop off and pick up? Despite the new arrangements many parents may simply continue to stop on Luck Lane/Link Rd to do this, particularly if there are queues to turn into/out of the main school site. Could permit parking/waiting restrictions be introduced along Luck Lane to encourage parents to drive into the school? The entrance/exit to the new temporary staff car park is on a hill which traffic travels at speed up/down. What can be done to keep cars turning into the newly used entrance safe?
