Address of the site or building:	Land at, Lingards Road, Slaithwaite, Huddersfield, HD7 5HY
Postcode:	HD7 5AL

User comments

Type of comment: An objection
This application will vastly effect the trees and landscape, the appearance is not in keeping with the country area, Lingards is a very narrow country road used by walkers and horse riders daily. The road is very narrow in some areas no pavement and other parts pavement on one side only, there is barely room for 2 cars to pass and there are blind bends, there is no way of widening as there are houses on both sides of the road and the increase in traffic is dangerous for residents and the local walkers etc. who enjoy the country side and the wild life which, will be destroyed. Some years ago planning permission was denied to convert the church into a restaurant for this very reason, the inability of the road to cope with high volume of traffic. I can only imagine the danger and the damage caused to the road during building with the large construction vehicles constantly on the road surface. In addition most households have more than 1 car, 2 or 3 in some cases, therefore there is the potential increase on the narrow road of over 300 cars per day more than once a day up and down the road. The creation of these houses will have a large effect on the neighbouring properties and the amenities, where will the children go to school for example, I am sure Neilds is at full capacity. This is a country area not a housing estate area, the estate is more suited to a residential area with sufficient amenities to support. I sincerely hope that all the comments made on this application from the residence will be taken very seriously, taking into consideration the environment, destruction of wildlife and road safety, also overcrowding.
