Highways Development Management****2020/93954 Land at, Lingards Road, Slaithwaite, Huddersfield, HD7 5HY****Erection of 57 dwellings and associated works****Date Responded:
05/02/2021****Responding Officer: Mark
Berry****Responding Ref: 1-32-20**

Further to the highway's consultation response dated 12th January

On further review and following a site on 3rd February Highways Development Management have the following additional comments:

The applicants should be asked to consider the implication of the on-street parking that may occur at this location between the site access and Nields Road, along the site frontage and to the frontage of the Nields Junior and Infant School. In the first instance peak time parking surveys (6am to 9am and 3pm to 6pm) should be undertaken to provide an understanding of the existing problems. Recommendations for appropriate mitigation works possibly in the form of strategically places additional waiting restrictions should also be provided.

A qualitative assessment of the existing pedestrian provisions between the site access and A62 Manchester Road should also be provided, again appropriate mitigation works possibly in the form of additional footway links should be provided.
