I object to the proposal because of the impact that new building would have on traffic along Lingards Road, the width of which is already restricted because of vehicles parked along the east side. There is no pavement on the side adjacent to the proposed development and above Top o the Hill the road is even narrower, especially on account of the overgrown verges. The junction with the Chain Road is already hazardous and additional traffic would make this exit even more dangerous. The proposed access to the site from Lingards Road is totally inadequate. Direct access to Manchester Road at the bottom of the site would appear to be a more satisfactory solution. Lingards Road is already a dangerous through route; additional traffic would make it worse
