While the latest Transport Statement provided by Paragon Highways describes the pedestrian facilities off the proposed housing estate, it does not explain how they are used and by whom. For example, it makes no mention of the fact that Nields School children will be walking along a section of Lingards Road with no protected footpath that will carry "90%" of vehicular traffic from the proposed housing estate. It make no mention of the fact that children use this same dangerous section of Lingards Road to reach the park on Springfield Avenue. Kirklees Highways requested in their response Ref: 1-32-20 that "A qualitative assessment of the existing pedestrian provisions between the site access and A62 Manchester Road should also be provided, again appropriate mitigation works possibly in the form of additional footway links should be provided." The Transport Statement does not provide a qualitative assessment nor does it describe any mitigation works that might be necessary. I object to the application on the basis that it would be unsafe.
