Hello, Further to my previous objection, I am denying this proposal for the following reasons: - The condensed and crowded plans of the development are not in line with the rural area and are especially damaging to all current housing bordering and near this development. -Our Local services such as dentists and doctors are already at very high capacity and this development will further clog our health systems - The increase of traffic will be significant on walkers and drivers - The impact on the environment and wildlife will be detrimental - There is no children play space listed in the planning which does not make sense considering the homes are targeted to families. - The housing developer did not consult community on this project - The landscape will be impacted as the development does not match it's surroundings and the character of the area - the new drainage systems needed look to be insufficient and brings risk of flooding
