My comments regarding the application, This development can only increase the already congested parking on Sude Hill, affecting the church congregations,funerals, weddings. The comments describe the site as waste land, it is anything but that. There is a very old apple tree on-site also including wild flowers and insects, which in turn provide food for the endangered bats in the area. The development will cut a dominating figure severely overlooking the neighbouring properties, not blending in with the surrounding traditional York stone properties, and seriously cutting out the morning sunlight to the properties on church street The application is far to big for the site, which will seriously affect the open aspect of the area, especially so close facing the historic church. The junction of church street, proceeding onto Sude Hill is already an extremely difficult junction to approach without a large development blocking the sight line The building materials of new sawn stone will not blend in with the surrounding properties.
