My comments regarding planning application No.2020/94161	
1) Construction of this property will majorly worsen the current congested parking problems on church street and Sude Hill, as the proposed property will consume parking of the houses below (where will they park?) this will cause issues on Sude Hill and Penistone Road where people will be forced to partially block junctions, bus stops and other properties causing conflict. 2) The proposed property will over look several neighbouring properties invading privacy, will block sunlight and views of the beautiful church opposite. 3) The land in which the proposed property is to be constructed on is currently a bustling habitat for fauna and flora including many birds, shrubs, trees and a apple tree. 4) Construction of this property will greatly obstruct the junction at Church Street onto Sude Hill, which is already difficult due to parked cars and the incline. With this property blocking sight i fear this will be increasingly dangerous.
