<p>I want to object on the demolishing of Clough House at Leeds Road. This house should be a listed property and hold much history from the Patterson generation. It is a landmark for the Howden Clough Area. A beautiful house that should be saved as the area of Howden Clough and Birstall is a small town with not many schools. Building a large houses area will have an effect on the schools and overground them more than they already are. I feel that having a new housing area on what is already a busy road is going to cause more disruption to the area.</p> <p>This house should be saved and I am sure Mr Patterson who lived there and sadly passed away would want his house to still stand. He was a well know reputable owner of this house and it's history is Howden CLougj</p>
