User comments

Type of comment: An objection
<ol style="list-style-type: none">1. The increased volume of traffic using Moat Hill Farm Drive would be extremely dangerous for residents already living there.2. Access for Emergency Services would be impaired due to the high volume of vehicles already parking on Moat Hill Farm Drive.3. Due to the fact that the road is never treated in Winter it is only a matter of time before there is a serious accident. Cars have already been damaged.4. I believe Clough House is a Grade 2 listed building. Once it is demolished, it cannot be rebuilt!5. I have no objection to the houses being built providing access is being formed entirely within the present Clough House curtilage.
