<p>I am writing to submit my objection to the demolition of Clough House and surrounding buildings.</p> <p>We live in a society whereby we are encouraged to recycle and upcycle as much as possible, to improve our carbon footprint and preserve the environment. To unnecessarily destroy sound buildings especially one's of which have local historical and cultural value and which could be renovated into apartments is a travesty and goes against the environmental lessons we are teaching our children and grandchildren. Please do not let the lesson that is taught to our future generation is one that greed is always the winner, allow these beautiful buildings to be converted into apartments and reduce the number of new build houses on the development.</p>
