Type of comment: An objection
<p>Although I do not agree with Clough House being demolished, my main concern is the fact they are requesting access via surrounding roads. Clough Drive is already extremely busy, many people not driving safely. There are young families and childminders living on the drive and the traffic already prevents child residents from playing out on what should be a quiet cul de sac. There should not be access to any new builds via the surrounding roads to ensure the safety of all residents. That being said, Clough House is a part of Howden Clough history and if there is a chance it could be saved then it absolutely should.</p>
