| <p>I would like to object to the demolition of Clough House, this building has been stood for over 200 years and should at least be given some restoration to bring it back to its former glory. It would be such a shame to loose such a statement to the area. If not as a house then why could it not be renovated into luxury apartments along with the coach house and other out buildings. There could then potentially be some more houses / apartments built around and then this would also lead to one entrance in and out - like its own community, very secure and safe.</p> <p>I would also like to object to access through Moat Hill Farm Drive, this would cause so many traffic issues on top of what there are already. There is currently double parking, parking on pavements and not enough space at times to get a car through let alone an emergency vehicle!!</p> <p>I would also like to object to the cutting down of the conifers that run alongside 50 Moat Hill Farm Drive, cutting these down would affect our privacy on our home, garden and our family. Not only that there is wildlife in the trees that would loose out on their homes/feeding, this includes bats that have been seen in there.</p> <p>Lets restore the house or make into luxury flats and the outer buildings and have one entrance in and out like it already is</p> |
