Type of comment: An objection
<p>This building should not be demolished. It is an 18th century Manor House & is part of Birstall's history. So many of our historical buildings have been destroyed, it should be preserved & restored as part of the historical & architectural heritage of Birstall & the surrounding area. It has been left to the vandals to reduce it to a sad & sorry eyesore but it will be a travesty if we lose this building.</p> <p>Furthermore the new housing will create much more traffic on Moat Hill Farm Drive, Jason Terrace & Leeds Road as well as increasing pressure on local services, schools, doctors & dentists.</p> <p>I appreciate the fact that new housing is required but maybe fewer dwellings could be built in the grounds with access to Leeds Road only, at the same time conserving what would once have been a beautiful home, Clough House.</p>
