I would like to make known my opposition to a proposed change to planning by my neighbours at 6 Osborne terrace, Batley, WF17 0LZ.

Planning for their extension, which have been approved do not include a window to the side elevation directly overlooking my patio, yet I have been informed by them yesterday that they have altered the plans and intend to do just that.

The original plans only give permission for access onto my property only to maintain the wall not for a window.

Your office have no record of amendments to the plans as yet (I spoke to someone there yesterday), but if and when they are submitted I would like my opposition noted.

If the amended plans are not submitted to yourselves please could you advise me where to lodge a complaint if the window is put in without permission.

Thank you for your help with this matter. I would be grateful if someone could acknowledge my objection and inform me what action will be taken.
