Firstly the only way this can be built is with access through my garden, this is fine as long as courtesy is given to myself and my property, that no mess or building materials be left in my garden, this is a very windy spot so anything that blows around be cleared up before the builder or workmen finish in the evening. Secondly that my access is not blocked so I can leave in my vehicle when necessary, unloading is fine obviously but I ask for the vehicle to be moved so I go about my daily routines. Thirdly as to the construction details, I see from the plans there is a window facing my garden, I don't object as long as frosted glass is used. Could I also ask that the work be carried out between 8am and 6pm and not carried on into the evening, I don't think these are unreasonable requests. Kind regards
