I would like to object to the plans of the only public house in briestfield the shoulder of mutton to residential property, this as always been a public house and i as i say the only community hub for the village we have no shop or post office so this is a place to meet, as well as socialise to see friends and family, the pub has not been closed since march 2020 it has been open and the land lady has been doing takeaway meals, untill Xmas its just come at a bad time the pandemic, which has made the hospitality trade suffer , the land lady is still living in the flat above hoping that when the restrictions ease she will be able to get back and running, its always been a busy pub as the villagers use it and people from surrounding villages, grange moor and whitley, We have lived in the village for many years and always been great supporters, so i ask you to consider our community when deciding your decision, why change to a residential we have enough houses in the village, we need our community hub.
