Hi, as a local archer and member of another club in kirklees, I would just like to add my comments in support of this application. Irrelevant of the current C19 position, archery is a fantastic sport for mental & physical health, archers from all walks of live, different ages, genders etc can all shoot together whilst taking part in archery, it can also be done with social distancing in place which makes ity a great sport in these times. I know from experience how clubs often struggle to find, let alone afford viable indoor shooting ranges/buildings/halls etc to use, this proposal sounds like it will provide an excellent facility for the club members to continue to enjoy archery throughout all months of the year. Obviously any new building has to be in keeping with the environment it is located, greenbelt included and I am very confident that will be the case here, therefore Kirklees Planning - i strongly urge you to accept this planning application in support of the Valley Bowmen of Huddersfield.
