<p>I object to this planning because the proposed location has dangerous parking conditions, 2 spaces located at the front of the property exiting and entering a main road that this is an already congested road and the opening hours will impact peak traffic to the m1 and in/out of Dewsbury, also In part 24 of the application form the applicant answered yes without explaining where there was a conflict, this lacks transparency and openness. I'd also be interested to understand the demographic within Earlsheaton to understand realistically how many people who will use this facility are within walking distance or is the walking distance a ploy realising that the parking is insufficient?</p> <p>The extra footfall/traffic will cause further risk to local children exiting the local school the local park and football pitches</p>
