<p>The plans are said to have been modified based on previous comments but this does not seem to have happened. The proposed building is still very near to my property and will block my light and impact negatively on my privacy - people will be able to see directly into my property and my garden, my only private outdoor space. The light blockage will be significant in my property as the building's elevation will be much taller than my property and very near to it. If the car park were put to the back and the property built with the front on the road (as noted in another objection) this would be much more suitable and in keeping with the village and much less impactful on surrounding properties. In addition, the number of proposed flats is a lot for the small space. If it were smaller, the proposed property would not be so squashed into the space causing it to be located so closely to neighbouring properties.</p>
