| <p>We have been asked by our client to add a further comment. He has originally asked for the rear extension to set back circa 2m from the side boundary is to also respect the existing leyandii hedges and safeguard their roots along the site boundary. In this way the soft landscape will be retained and allow a better soft screening rather than a view of a brutal blank wall of the extension. The privacy needs to be respected.</p> |     |
