1) The proposed plan to move the driveway to a new location directly opposite the private shared driveway of 22,24,26 and 28 is ill thought out and not shown on the plans!This will create congestion and turning problems especially since road access is single file and already very tight. 2) The lower part of the White Wells Estate was deliberately designed with the upper part of the circle having driveways on the R.H.S. of the property, moving to the L.H.S. with the lower end. The intention being to make the circular layout aesthetically pleasing to the eye. The proposed new driveway would spoil this well laid out feature. Incidentally, the layout of this street was identified as first class and was put forward for a design award. 3) Although this does not affect us, I imagine #25 will be deprived of sunshine in their back garden.
