

Town and Country Planning Act 1990

**Town and Country Planning (Development Management Procedure) (England) Order
2015**

PLANNING PERMISSION FOR DEVELOPMENT

Application Number: 2021/62/90343/W

To: Michael Denton Associates
3, Central Street
Halifax
HX1 1HU

For: SKA Property Management

In pursuance of its powers under the above-mentioned Act and Order the KIRKLEES COUNCIL (hereinafter called "The Council") as Local Planning Authority hereby permits:-

DEMOLITION OF EXISTING BUILDING AND ERECTION OF 2 DWELLINGS
AND WIDENING OF EXISTING ACCESS (WITHIN A CONSERVATION AREA)

At: REAR OF, 154, TRINITY STREET, HUDDERSFIELD, HD1 4DT

In accordance with the plan(s) and applications submitted to the Council on 18-Feb-2021, subject to the condition(s) specified hereunder:-

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policies LP1, LP2, LP21, LP22, LP24, LP30 and LP35 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

3. The works to demolish and rebuild the building shall be carried out in accordance with the details set out within the Heritage Statement (Revised May 2021). This includes manual methods of demolition whereby the re-usable stone and roof slates can be marked and stored safely for the re-build.

Reason: In the interests of visual amenity, heritage and biodiversity, to ensure that any future development would enhance the character and setting of Greenhead Park and New North Road Conservation Area, in accordance with Policies LP24 and LP35 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

4. Prior to their use in the construction of the hereby approved development, samples of all new facing materials and features to supplement those salvaged from the existing building shall be submitted to and approved in writing by the Local Planning Authority.

Reason: So as to ensure the satisfactory appearance of the development on completion, to ensure that any future development would enhance the character and setting of Greenhead Park and New North Road Conservation Area and to accord with Policies LP24 and LP35 of the Kirklees Local Plan and advice within the National Planning Policy Framework.

5. Before either of the hereby approved dwellings are first occupied the access to the parking area to serve the development will be widened in accordance with the specification set out on the hereby approved Dwg. No. 19:11:7205:100. The widened access shall thereafter be retained.

Reason: In the interests of highway safety and to accord with Policy LP21 of the Kirklees Local Plan.

6. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 as amended (or any Order revoking or re-enacting that Order) no doors, windows or any other openings, other than those expressly permitted by this development, shall be created within the north eastern and south eastern facing elevations of dwellings hereby approved.

Reason: So as not to detract from the amenities of neighbouring properties by reason of loss of privacy and to accord with Policy LP24 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

7. Before occupation of each dwelling, one electric vehicle recharging point shall be provided within the parking areas for each dwelling. Cable and circuitry ratings shall be of adequate size to ensure a minimum continuous current demand of 16 Amps and a maximum demand of 32Amps. The electric vehicle charging points so installed shall thereafter be retained.

Reason: To encourage ultra-low emission vehicles in the interests of air quality and accord with the guidance contained in Chapter 9 and Chapter 15 of the National Planning Policy Framework, the West Yorkshire Low Emissions Strategy and Policies LP 21 and LP24 of the Kirklees Local Plan.

8. One nest box suitable for house sparrow (Schwegler 1SP sparrow terrace, or similar) shall be installed within the exterior of the apartment 1 during the construction phase before the dwelling is first occupied. The box shall be installed on the North Eastern facing elevation, at least 4 metres above ground and not located above windows or doors. The box shall thereafter be retained.

Reason: In the interests of enhancing the biodiversity value of the site, in accordance with Policy LP30 of the Kirklees Local Plan and Chapter 15 of the National Planning Policy Framework.

9. No development shall commence until intrusive site investigations have been carried out on site to establish the exact situation in respect of coal mining legacy features. The findings of the intrusive site investigations shall be submitted to the Local Planning Authority for consideration and approval in writing. The intrusive site investigations shall be carried out in accordance with authoritative UK guidance.

Reason: This is in order to ensure the safety and stability of the development given the sites coal mining legacy, in accordance with paragraphs 178 and 179 of the National Planning Policy Framework and to accord with Policy LP53 Of the Kirklees Local Plan. This is a pre commencement condition as intrusive site investigations may be necessary before work can commencement on the construction of the development hereby approved.

10. Where the findings of the intrusive site investigations (required by condition 9) identify that coal mining legacy on the site poses a risk to surface stability, no development shall commence until a detailed remediation scheme to protect the development from the effects of such land instability has been submitted to the Local Planning Authority for consideration and approval in writing. Following approval, the remedial works shall be implemented on site in complete accordance with the approved details.

Reason: This is in order to ensure the safety and stability of the development given the sites coal mining legacy, in accordance with paragraphs 178 and 179 of the National Planning Policy Framework and to accord with Policy LP53 Of the Kirklees Local Plan. This is a pre commencement condition as remediation measures may be necessary before work can commencement on the construction of the development hereby approved.

11. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 as amended (or any Order revoking or re-enacting that Order with or without modification) no development included within Classes A, B, C, D and E of Part 1 of Schedule 2 to that Order shall be carried out within the site, outlined in red on the submitted location plan (Dwg. 19:11:7205:100), prior to written consent from the Local Planning Authority.

Reason: In the interests of visual amenity and heritage, to ensure that any future development would not lead to the overdevelopment of the site or detract from the character and setting of Greenhead Park and New North Road Conservation Area, in accordance with Policies LP24 and LP35 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of: 07.30 and 18.30 hours Mondays to Fridays 08.00 and 13.00hours, Saturdays With no working Sundays or Public Holidays In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which work may be carried out.

NOTE: Electric Vehicle Charging Points

- A Standard electric vehicle charging point is one which is capable of providing a continuous supply of at least 16A (3.5kW). A 32A (7kW) is however more likely to be futureproof
- Standard charging points for single residential properties that meet the requirements specified in the latest version of “Minimum technical specification - Electric Vehicle Homecharge Scheme (EVHS)” by the Office for Low Emission Vehicles will be acceptable. Basically, charging points that provide Mode 3 charging with a continuous output of least 16A (3.5kW) and have Type 2 sockets would be acceptable.
- The electrical supply of the final installation should allow the charging equipment to operate at full rated capacity.
- The installation must comply with all applicable electrical requirements in force at the time of installation.

NOTE: Due to its location, a bat roost may be present on site. Bats are a European protected species under regulation 41 of the Conservation of Habitats and Species Regulations 2010. It is an offence for anyone intentionally to kill, injure or handle a bat, disturb a roosting bat, or sell or offer a bat for sale without a licence. It is also an offence to damage, destroy or obstruct access to any place used by bats for shelter, whether they are present or not. If bats are discovered on site development shall cease and the applicant is advised to contact Natural England for advice.

Plans and specifications schedule:

Plan Type	Reference	Version	Date Received
Location plan and existing and proposed floor plans and elevations	19:11:7205:100	-	18th February 2021
Structural report	-	-	18th February 2021
Coal Mining Risk Assessment	-	-	18th February 2021
Heritage and justification statement	Revised May 2021	-	10th May 2021

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application. In this instance, officers have entered into discussions with the agent regarding a bat survey, however, they have confirmed that the building is not safe to enter. Furthermore, details of demolition have been required and therefore a method statement has been received. This was sought on the 10th May 2021.

Digital Infrastructure: Fibre To The Property (FTTP)

Access to affordable and reliable broadband is necessary for Kirklees' residents, businesses, and visitors to take advantage of the growing digital economy and 'digital by default' services. Fibre optic cables direct to a property (FTTP) is the most reliable way of delivering high speed broadband connectivity and allows for gigabit internet speeds. Access to high quality digital infrastructure provides the foundations for, amongst other things:

- Economic prosperity – workforces that are digitally-literate enables business to thrive.**
- Digital literacy – digital literacy and skills increase employability and people can exploit the internet for transactional, social, entertainment and learning purposes.**
- New services – digital delivery can lower costs and provide innovative public and health services more conveniently.**

It is therefore advised that digital infrastructure, including FTTP, and its benefits for the development be considered from the earliest feasible stage. Methods include working with Internet Service Providers to install digital infrastructure alongside other utilities or providing pre-infrastructure allowing for speedier installation at a later date.

To discuss the benefits that FTTP may have for your development, please contact Carl Tinson in Kirklees Council's Digital Team at carl.tinson@kirklees.gov.uk.

Note: The provision of fibre infrastructure is often available from certain telecommunications providers free of charge for development over a certain scale, provided that sufficient notice is given. Notice periods are typically at least 12 months prior to first occupation. In some cases, providers may request a contribution from the developer.

Note: Where no telecommunications provider has been secured to provide fibre infrastructure by the time of highway construction, it is advised that additional dedicated telecommunications ducting is incorporated alongside other utilities to enable the efficient and cost effective provision of fibre infrastructure in the future.

Building Regulations Approval is required for most work involving building operations and/or structural alterations. It is the applicant's responsibility to find out if the work permitted by this planning permission needs approval under the Building Regulations, and if necessary to submit an application. If you are not the applicant can you please ensure the applicant is aware of this requirement. Contact Building Control on Tel No: (01484) 221550 for more information.

It is the applicant's responsibility to find out whether any works approved by this planning permission, which involve excavating or working near public highway and any highway structures including retaining walls, will require written approval from the Council's Highways Structures Section. Please contact the Highways Structures Section on Tel No. 01484-221000 Ext 74199 for further advice on this matter.

Details Reserved by Condition

- This permission has been granted subject to conditions. Some of the conditions may require you to submit further details. These conditions normally contain the wording "submitted to and approved in writing by the Local Planning Authority".
- You can apply online for approval of these details at the Planning Portals website at www.planningportal.gov.uk. Alternatively the forms and supporting guidance for submitting an application can be found online at www.kirklees.gov.uk/planning.
- This Authority recognises the need to ensure that you are able to develop the site as effectively and flexibly as possible. However, at the same time it must ensure that development is in accordance with the terms of the planning conditions and legal agreement and the expectations of elected members and local residents set through the decision process.
- You should note the triggers for compliance with the conditions of this planning permission. This Authority is committed to processing applications to discharge conditions in a timely manner. It is important to ensure that submissions are made as far in advance of the trigger to allow time for adequate consultation, discussion and in some circumstances publicity.
- It is important that applications to discharge conditions are accompanied by sufficient information to enable this Authority and its consultees to fully consider and determine the proposals. Whilst officers will endeavour to negotiate solutions, failure to provide a comprehensive submission may result in delay and refusal of the application.
- If you commence work without discharging conditions you are at risk of enforcement action and invalidating your permission if the planning condition is a pre commencement condition.

Development within a Coal Mining Area

The proposed development lies within an area that has been defined by the Coal Authority as containing potential hazards arising from former coal mining activity at

the surface or shallow depth. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such hazards are seldom readily visible, they can often be present and problems can occur in the future, particularly as a result of new development taking place.

It is recommended that information outlining how former mining activities may affect the proposed development, along with any mitigation measures required (for example the need for gas protection measures within the foundations), is submitted alongside any subsequent application for Building Regulations approval (if relevant).

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design which takes into account all the relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at:

www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at:

www.gov.uk/government/organisations/the-coal-authority

If this application has been publicised by notice(s) in the vicinity of the site, please would you now remove the notice(s) and dispose of it/them responsibly to avoid harm to the appearance of the local area.

Appeals to the Secretary of State

- If you are aggrieved by the decision of your Local Planning Authority to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal

against your Local Planning Authority's decision on your application, then you must do so within:

- i) 28 days of the date of service of the enforcement notice, or
- ii) within the specified period, starting on the date of this notice,

whichever period expires earlier.

- If you want to appeal against your Local Planning Authority's decision then you must do so within the specified period, starting on the date of this notice.
- The "specified period" is 12 weeks where the development relates to a "minor commercial application" as defined within the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), or 6 months in any other case.
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/planning-inspectorate> . Further information on the Planning Appeal process can be found online at the Planning Inspectorates website <https://www.gov.uk/government/organisations/planning-inspectorate>.
- You must use the correct Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the type of application that the appeal relates to so they can send you the appeal form you require.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

Please note, only the applicant possesses the right of appeal.

Purchase Notices

- If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

An important part of improving our service is to review your feedback on the way that we have dealt with your planning application(s). Please take a couple of minutes to email your comments to dc.admin@kirklees.gov.uk so that we can work on continually improving our customer service. Thank you.

Dated: 25-May-2021
