The type of neighbourhood is one which is quiet with a mixture of families from those which are retired to some with younger children. A key reason for purchasing a home in this street/area relates to the peacefulness and nature of the neighborhood. This links to noise, disturbance grounds. Typically the traffic created via the residents is low with mostly off road parking. I would be concerned over the changes to this. This links to impact on highway safety and traffic. We have had no notification of this from Flourish Children's homes. Will this be classed as a C3(c) dwelling? If so can this be explained to the local neighbourhood to enable residents to understand any potential impacts. Concerns over the value of property within the close location (which includes our property) are of concern. Has any impact analysis been completed to this end? Who is the main point of contact for this application? I understand Erin Hill has not be shown to be contactable.
