The proposed garage and caravan storage directly borders our garden. We have a concern that the garage and caravan will be directly visible through the existing hedge and this could be somewhat unsightly compared to the existing open space especially when it weathers over time. The position of the proposed garage and caravan would also make it impossible for them to maintain their hedge without entering our property and it does require regular pruning as it gets out of control. We therefore believe that it would be better to remove the existing overgrown hedge and replace with a 2.5m fence on the border ensuring it is congruent and aesthetically pleasing along our border that would be easier to maintain for them.
